MAQUILLAJE NATURAL

"Sea cual sea la tendencia que decidas usar, el maquillaje natural que logra un acabado de piel luminosa y firme es siempre una excelente opción y es uno de los imprescindibles de la temporada", explica Pico. Para conseguirlo, es fundamental la hidratación de la piel y exfoliación si es necesario. Aquí no es posible marchar cobres, así es que deberás optar por los tonos pastel o nude. Es importante conocer el tono de tu piel para escoger el color más parecido a ella y lograr un rostro liso y armonioso, maquillado, pero que casi para desapercibido.
